The Notre Dame Cathedral Fire @cathedral_dame · Jan 10, 2020

The spire on the Notre Dame Cathedral collapses

Where is Jesus's crown of thorns today?

The French king Louis IX (St. Louis) took the relic to Paris about 1238 and had the Sainte-Chapelle built (1242–48) to house it. The thornless remains are kept in the treasury of Notre-Dame Cathedral in Paris; they survived a devastating fire in April 2019 that destroyed the church's roof and spire.

Why the crown of thorns is in France?

After a number of negotiations with Baldwin II (the Latin emperor of Constantinople) and Pope Gregory IX, the Crown of Thorns was transferred from Constantinople to the Venetians, and finally to Paris, with Louis IX paying 13,134 pieces of gold to acquire it (Fig.

The Crown of Thorns remained in this royal chapel until the French Revolution. In 1790, some of the relics were safely delivered to the abbey of Saint-Denis and, in 1806, Archbishop Jean-Baptiste de Belloy of Paris oversaw the transfer of the relic to the treasury of Notre Dame, where it could be worshipped by all of the people of Paris as a shared, civic treasure.

It has remained in the cathedral, enduring the violence of the Commune and two World Wars, until calamity struck on April 15. It will be housed at the Hotel de Ville during the rebuilding of Notre Dame.

The Notre-Dame was built on the ancient, spiritual core of Paris — the Île de la Cité.

180 years after the cornerstone was laid in 1163, one of the world's tallest structures was completed.

When the Notre-Dame burned in 2019, the crown was saved by heroic firefighters.

Now, rebuilt from its ashes, the cathedral is ready to welcome its crown back...

"It's not reality.
It's not happening, it's not possible."

Even for a Parisian firefighter.

Crown of Thorns, stained glass windows survive Notre Dame Cathedral fire

Who did France buy the crown of thorns from?

Christ's Crown of Thorns is more important
than Notre Dame Cathedral,

It was like nothing I've ever experienced
in my life as a firefighter.

We finally found it behind a glass frame,

how lucky they were
to have the Crown of Thorns in France.

The firefighters knew
they were not simply saving a building,

On 16 April, the Paris prosecutor said that there was no evidence of a deliberate act.^[25]

Extensive attention had been given to the risk of fire at the cathedral. The [Paris Fire Brigade](#) drilled regularly to prepare for emergencies there, including on-site exercises in 2018; a firefighter was posted to the cathedral each day; and [fire wardens](#) checked conditions beneath the roof three times daily.^[25]

What's amazing is that Notre Dame was never burned down during the revolution but has a hard time standing in modern times

Culture Critic @Culture_Crit · Dec 2, 2024 ...
Exactly.

The worst the revolutionaries did to it was beheading the 28 statues on the west facade — representing the kingly ancestors of Mary and Jesus.

In 1238, King Louis IX purchased the crown from his cousin, the Byzantine Emperor.

Baldwin II was forced to trade it for an army to save his collapsing empire, so it went from Constantinople to Paris — where it's been ever since.

We are told the speed of light cannot be exceeded. What if that is wrong? What if Einstein was wrong and the theory of General Relativity is incorrect? Could that open up a whole new world of possibilities? In May 2025 **The Alternative View** returns to Glastonbury where Roger Anderton will be asking those questions and putting forward an exciting new model.
